

## Browsing & Checking Out

Click on My Account or Login & enter your Library barcode number.

On the left side of the screen, you will find the eBooks section. To browse all eBooks, click on the All eBook Titles link.

Scroll through the list. You may place a hold on any titles that are currently checked out to others.

Once you find a title, click Add to Cart next to the link for the format that you want (Kindle, ePub, PDF).

If you are finished, click Proceed to Checkout, and then confirm checkout.

To manage your default eBook lending periods, click on My Account, then Lending Periods.

Would you like to search beyond the basics? Click on Advanced search to find eBooks by publisher, subject, format and more. You can even opt to show only available titles.

eBooks can be returned early! Right click on the title in Adobe Digital Editions, or for Kindle users, use Manage your Kindle to select the appropriate action.

## Downloading & Transferring to the Nook

After you confirm the checkout, click on Download.

When the dialog box appears, click on Open. Adobe Digital Editions will open and download the eBook.

Plug in the Nook, and click on Library View. A Nook icon will appear on the bottom left pane of Adobe Digital Editions.

Click on the eBook you wish to transfer, and drag it to the Nook icon.

Once it finishes transferring, safely remove your Nook.

You will find your newly downloaded eBook by selecting My Library and then selecting Go to My Documents.

All Nook models require the use of Adobe Digital Editions and a USB connection. Library eBooks will not transfer via Wi-Fi at this time.

## Transferring to the Kindle eReader

After you confirm the checkout, click on Get for Kindle.

A new web page directed to Amazon.com will open.

Click on Get Library Book. If you are not already signed in to your Amazon account you will need to enter your information now.

Select the device to which you would like your eBook delivered.

Click continue. The eBook will be delivered wirelessly to your Kindle. You may need to sync your device at this time.

Library eBooks for Kindle cannot be transferred via 3G. A Wi-Fi connection is necessary. If Wi-Fi is unavailable, eBooks can be transferred via USB.

Kindle Fire users will download eBooks directly from Salon using a Wi-Fi connection.

## Getting Started with eBooks

Go to <http://www.crandalllibrary.org>

Roll over Find Books and More

Click on Downloadable Media

Click on the Download Audiobooks and eBooks link (Salon)

If this is your first time, click on Quick Start Guide on the left side of the screen.

Most eReaders (except Kindle and Kindle Fire) will require you to download and install Adobe Digital Editions and OverDrive Media Console. Both of these are necessary to download and manage your borrowed eBooks, and they will require periodic updates.

If you are using a Kindle eReader or Kindle Fire, you will not need to download anything, but you will need to have an account with Amazon.

Scroll down to the links under Digital Software to download the necessary software.

If you do not already have an Adobe ID, you will need to create one.

If you are using an iPad/iPhone or other mobile device (see the SALON website for a list of compatible devices), you can download the OverDrive Media Console app. You will not need to download Adobe Digital Editions. OMC is available on the App Store or Android Market. You will need to have an account with iTunes (App Store) or Google (Android Market) to download the app.

**You are now ready to start browsing!**
