SCOPE AND CONTENT OF THE RECORDS

These two volumes record water rents for Corinth, Saratoga County, New York. Volumes list names of people purchasing water, together with amounts paid and dates of payment. The second volume also provides information regarding rebates, fixture rental, and distributions (at six month intervals, May and November). Entries in both volumes are made chronologically. Blank forms inserted in the back of the second volume bear the name Dunn Water Supply Company. It is likely that the Dunn Water Supply Company was the name of the business that collected at least some of the water rents, but the company's role in the creation of the volumes is unclear. However, a note in the second volume indicated that this volume belonged to Joseph Irving Dunn.
